

It can make sense!

The basics of sensory processing and practical strategies to make a difference to behaviour.

Who is it for? Anyone who wants to learn about sensory processing; including parents, educators, carers, family, community support workers.

When: Saturday 8th May 2010
9am to 3pm

Location: Kempsey Early Intervention Centre,
32 Nicholson Street, West Kempsey.

How much? \$150 including morning/afternoon tea and lunch
(FaHCSIA- Helping Children with Autism funding can be used for the full amount if registered through Kempsey Early Intervention Centre).

Presenter: Angela Lockwood, Accredited Occupational Therapist and Practice Manager of Sunrise Health

What will you learn?

- ✓ Learn the difference between typical behaviour and behaviours caused by sensory factors.
- ✓ Understand what can trigger meltdowns and learn what you can do to minimise them.
- ✓ Develop a 'tool kit' of strategies to use with your child and student.
- ✓ Learn how to set up a 'sensory space' in your home and classroom.
- ✓ For all participants to walk away with a better understanding of sensory processing and a better understanding of your child and student!

To register your child, call
Kempsey Early Intervention on 6562 6491
